	Tuesday, Thursday, Saturday.				Tuesday, Thursday, Saturday.	

No. 48 will not leave Asphalto until No. 47 has arrived.

SPECIAL RULES.

1. Engineers and conductors must examine bulletin board daily in the telegraph offices at Mendota, Merced, Fresno, Goshen Junction and Bakersfield.

2. The speed of passenger and freight trains must not exceed fifteen and eight miles per hour respectively while crossing the bridges over the Stanislaus, Tuolumne, Merced, San Joaquin, Kings and Kern rivers.

3. The limits of Fresno yard are from Standard Oil Co. Spur on the north to junction of the Fresno Division on the south. The northern limit of the Poso yard is the junction of the Fresno Division with the main line. The northern limit of Bakersfield yard is one quarter of a mile north of the most northern switch.

4. All trains must enter the yards at Lathrop, Stockton, Merced, Berenda, Fresno, Goshen Junction, Tulare, Poso, Mendota, Collis, Armona and Bakersfield with care, and under full control, expecting to find main track occupied.

5. Lathrop, Merced, Berenda, Fresno, Porterville, Goshen Junction, Tulare, Poso, Bakersfield, Mendota, Collis, Armona, Lemoore, Huron, Alcalde, Stockton, Peters, Raymond, Pollasky, Asphalto and Milton are registering stations. Nos. 17 and 18 will register at Poso by leaving a card.

6. All trains must procure either orders or clearance cards before leaving their terminal stations.

7. At Collis the switch in the West Side main line between the water tank and the depot will be kept set for the siding, which siding through the Collis Yard, including the curve connecting it with the Fresno line, will be used as the Mendota-Fresno main line. At Armona the switch will be left set so as to make the Collis-Goshen line the main line.

8. Standard clocks are located at Lathrop, Merced, Fresno, Goshen Junction, Bakersfield and Mendota.

9. Freight trains 25, 26, 27, 28, 29, 30, 35, 36, 37 and 38 will carry passengers. No other freight trains will carry passengers, except as provided in Rule 242, and employees to and from their work.

10. Trains on the Alcalde Branch moving toward Alcalde will be regarded as going toward San Francisco as indicated on the Time Card.

In pulling out of stations, brakemen must watch wheels closely to see that brakes are fully released, and will immediately signal engineers to stop if wheels are found sliding. Engineers must keep a sharp lookout for such signals, as per Rule 278. Each brakeman will be held responsible for any wheels slid flat under the part of the train in his charge. Conductors in reporting flat wheels will give name of brakeman in charge.

See Rule 84.—All west-bound trains have the absolute right of track over all trains of the same class running in the opposite direction.
